MetalliCards are available in aluminium or stainless steel to meet a wide range of labelling requirements. The chrome-coated aluminium tags are the inexpensive alternative for a variety of applications, and in particular, they prove themselves through the deep contrasts of their multi-colour print.

In the technologically demanding chemical and process industries, you are on the safe side when using the stainless steel MetalliCard with its outstanding resistance characteristics. Its formats cover the needs of the entire system-identification spectrum. Whether small equipment or type plates, they ensure high-quality marking processes. The MetalliCard also offers optimum installation characteristics. MetalliCards can be used universally thanks to various fixation options: bonding, riveting, with tag holders or rails, or in combination with stainless steel cable ties.

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.

General ordering data

Version	MetalliCard, Device markers, 10 x 30 mm, silver
Order No.	1505140000
Type	CC-M 10/30 2X2.5 AL SDR
GTIN (EAN)	4050118313482
Qty.	1 pc(s).

Technical data**Dimensions and weights**

Depth	0.5 mm	Depth (inches)	0.02 inch
Height	10 mm	Height (inches)	0.394 inch
Width	30 mm	Width (inches)	1.181 inch
Net weight	0.42 g		

Temperatures

Operating temperature range	-55...130 °C
-----------------------------	--------------

General data

Colour	silver	
Material	Anodized aluminium	
Number of markers per combination	1 MetalliCard = Device markers	
Number of markers per packaging unit	Form of supply	MetalliCard
Operating temperature range	-55...130 °C	
Operating temperature range, max.	130 °C	
Operating temperature range, min.	-55 °C	
Printed characters	Based on customer requirements (Please send M-Print PRO file)	
Size of labelling field	10.2 x 22.5 mm	
Width	30 mm	

Device markers

Drill-hole diameter	2.5 mm
---------------------	--------
