Depth	22 mm	Depth (inches)	0.866 inch
Height	80 mm	Height (inches)	3.15 inch
Width	200 mm	Width (inches)	7.874 inch
Net weight	425 g		

Technical data

Description of article	Version	Mechanical, without inter-changeable inserts
(1)Crimping tool		

Description of contact

Conductor cross-section, max. AWG	AWG 10	Conductor cross-section, min. AWG	AWG 26
Crimping range, max.	6 mm ²	Crimping range, min.	0.14 mm ²
Type of contact	Wire-end ferrules with/ without plastic collars		

tool data crimping

Crimping type/profile	Trapezoidal crimp

Replacement parts

Replacement parts

After stripping the insulation, a suitable contact or wire end ferrule can be crimped onto the end of the cable. Crimping forms a secure connection between conductor and contact and has largely replaced soldering. Crimping denotes the creation of a homogeneous, permanent connection between conductor and connecting element. The connection can be made only with high-quality precision tools. The result is a secure and reliable connection both in mechanical and electrical terms. Weidmüller offers a wide range of mechanical crimping tools. Integral ratchets with release mechanisms guarantee optimum crimping. Crimped connections made with Weidmüller tools comply with international standards and regulations.
