Technical data**Dimensions and weights**

Width	250 mm	Width (inches)	9.842 inch
Net weight	674.2 g		

Technical data

Description of article	Crimping tools for flat-blade connectors and flat-blade receptacles, connector width 6.3 mm	Version	Mechanical, without interchangeable inserts
------------------------	---	---------	---

Description of contact

Conductor cross-section, max. AWG	AWG 10	Conductor cross-section, min. AWG	AWG 21
Crimping range, max.	6 mm ²	Crimping range, min.	0.5 mm ²
Plug width	6.3 mm	Type of contact	F-plug / -sleeve

tool data crimping

Crimping type/profile	B-Crimp

After stripping the insulation, a suitable contact or wire end ferrule can be crimped onto the end of the cable. Crimping forms a secure connection between conductor and contact and has largely replaced soldering. Crimping denotes the creation of a homogeneous, permanent connection between conductor and connecting element. The connection can be made only with high-quality precision tools. The result is a secure and reliable connection both in mechanical and electrical terms. Weidmüller offers a wide range of mechanical crimping tools. Integral ratchets with release mechanisms guarantee optimum crimping. Crimped connections made with Weidmüller tools comply with international standards and regulations.
