U-OS-PWEB-ES-RT-5000/2

PROCON-WEB Embedded System is easy to install on u-OS through the app manager.

To implement the optimal web-based HMI solution, PRO-CON-WEB Embedded System offers the following features:

- Roles and rights based user management
- Extensive alarming
- predefined controls, such as buttons, sliders, text fields or image areas
- powerful more complex controls, like iframes, charts, tables
- flexible scripting for maximum flexibility
- Historian functionality for storage and visualization of historical data
- connection to the controller via communication driver

General ordering data

Version	Visualization software, Platform for runtime system: u-OS compatible devices, Number of process variables, max.: 5000, Number of HMI-devices, max.: 2
Order No.	2942020000
Type	U-OS-PWEB-ES-RT-5000/2
Qty.	1 pc(s).

Creation date April 27, 2024 11:29:30 PM CEST

U-OS-PWEB-ES-RT-5000/2

Technical data

Dimensions and weights

Net weight	0

Features of the runtime

Platform for runtime system	u-OS compatible devices	Number of HMI-devices, max.	2
Maximum number of drivers	1	Projectable by	PROCON-WEB Designer
Runtime features	Simple and complex controls, Alarming, Historian, User-Management, Process connection via communication drivers		

Licence information

Licence coverage	One-time licence	Licence type	Software licence
Licensing by	WIBU Ticket ID	Number of process variables, max.	5,000

System data

Number of HMI-devices, max.	2	Number of process variables, max.	5,000
Operating system	u-OS	Platform for runtime system	u-OS compatible devices

System requirements

Minimal disk space needed	0.1 GB	Minimal memory (RAM) needed	0.1 GB
Operating system	u-OS
